

*Konstantin Bogdanov* received his Master degree and Ph.D. in physics from the University of Physics and Technology (Dolgoprudny, Russia) for work on modeling of electric fields in living systems. Then Dr. Bogdanov joined the Cardiology Research Center (Moscow, Russia) where he investigated the physical mechanisms responsible for contractile activity of cardiac muscle. Later he received his Doctor of Science degree in biology for the study. Dr. Bogdanov is an author of over 60 refereed journal articles. He is also the author of physics textbooks for high school. Dr. Bogdanov presently works for lyceum #1586 (Moscow, Russia) where heads the department of physics.
